

Post 2: Staying Alert on Vishing & Smishing

Caption: Phishing isn't just an email problem anymore. Cybercriminals are now targeting you through phone calls (vishing) and texts (smishing) and they're getting more personal. 📞 📱

Stay vigilant with these quick tips:

- 🚫 Don't trust unexpected calls or texts asking for sensitive info
- 🔍 Verify suspicious numbers—caller ID can be spoofed
- ! Avoid clicking on unverified links

When in doubt, double-check before you click.
